

NOMAD
 **YACHTS**

The elegantly designed Nomad 55 is perfect for long-distance travelling without the need to make frequent fuel stops – allowing for an uninterrupted, luxurious cruising experience for boaters.

The Nomad 55 also offers extraordinary views and exceptional piloting from its fly-bridge area where there are numerous seating options. Meanwhile, the lower deck is spacious and airy, boasting four guest cabins and one crew cabin.

Although the 55 Fly is the smallest boat in the Nomad range, it still displays the same outstanding performance characteristics as the larger models, with the ability to cross huge distances and cope with anything the sea can throw at her. The boat still provides extraordinary space for a 55-foot boat due to the volume in the semi displacement hull design and enjoys all the attributes that Nomad Yachts are famous for.
